

DL-METHIONINE 99%

Product information:

- ❖ It is an essential amino acid that acts as a nutrient to facilitate the efficient production of high-quality chicks.
- ❖ It also reduces the amount of nitrogen excreted by livestock.

Benefits of the product:

- ❖ It plays an important role in the metabolic processes of animals.
- ❖ Essential to ensure rapid growth rates in animals for optimal growth, reproduction, and overall healthy performance in poultry.

Product specifications:

DL-Methionine	99%
Pb (mg/kg)	≥20
Loss on drying	0.3%
Sodium Chloride (Cl-)	0.2%
Appearance	White crystals or crystalline powder

Product	Classification	Package size
DL-METHIONINE 99%	Feed additives	Powder (25 kg)

Description	Specifications	Results
Appearance	white crystalline powder	Conforms
PH	5.4 - 6.1	5.8
Assay (on dry matter) %	98.5 - 101.5	99.3
Loss on drying%	≤ 0.3	0.22
Chloride (NaCl) %	≤ 0.2	0.18
Pb (mg/kg)	≤ 20	19.5
As (mg/kg)	≤ 20	1.7
